

PRODUCT APPLICATION

How to clean with Stone Foam PASTE for amazing results:

1. Wet Sponge with tap water

2. Wipe the wet sponge a few times over the paste

3. Squeeze the sponge to produce foam

4. Gently wipe the foamy sponge onto the surface.
Use gentle circular motions.

5. Leave product on the surface for about a minute, so the active ingredients can work.
Wipe clean with a wet cloth or rinse with water.

Caution:

Not recommended for use on painted or coated surfaces. If unsure, test on a small area.

DO NOT SCRUB! Wipe gently as excessive force may damage the surface.
